HISPANIC ART AND CULTURE FEATURED IN DISTRICT 11 ART EXHIBITION AT iSpace

-- Student Artists are Featured in District-wide Exhibit --

Colorado Springs, CO – Imagination Celebration’s largest facility, iSpace, is currently featuring an art exhibition of works from School District 11 students centering on Hispanic culture, with the artists ranging from elementary through high school. The exhibit is now in place through Saturday, January 5, 2013 in iSpace, located on the upper level of the Burlington wing of The Citadel mall.

The artwork is of varied mediums, with the works reflecting various aspects of Hispanic art and culture as studied in the art and history curriculum of the District 11 schools. The best of the works coming from each school’s art classes are featured in this juried show. Individual art teachers at the respective schools made the initial selections of artworks that were entered. A jury of three local artists has studied the entered field and will award first, second and third places plus honorable mentions in each of three school divisions – elementary, middle and high school. The jury will also name a Best of Show award from the entered artworks.

The winners in the elementary, middle and high school divisions, as well as the Best of Show award, will be announced at a reception for the artists and their families, teachers and friends on Tuesday, December 4 at 5:30 pm in iSpace at The Citadel. This dynamic exhibition of art is now on display daily at iSpace, which is open Tuesday through Saturday, 10:00 am to 6:00 pm. Admission is free.

Imagination Celebration connects people to the brain-stimulating, community-building, life-enhancing power of creativity by inspiring artistic and intellectual curiosity; instigating community collaborations; and promoting life-long experiential learning that helps us thrive in a changing world.
